The Coding Corner

"Worried about losing direct oversight of your billing? It's a natural reaction considering that **effective billing is the foundation of your revenue stream**. But outsourced billing provides numerous benefits that simply can't be realized by keeping it in-house."

ICD-10 has
140,000
Codes?

What's
ICD-10?

Are You Prepared for ICD-10?

If you currently have in-house billing, "the AHMA estimates coders will need to focus 16 hours of training on ICD-10-CM, 24 hours on ICD-10-PCS and at least another 10 hours on practice implementations."

If this comes as a surprise to you and you don't want to be stuck with costly mistakes, consider outsourcing to URS Billing Services. We are prepared to handle the anticipated 55,000 new codes.

Keep URS Informed!!
